The P versus NP problem is a major unsolved problem in computer science. It asks whether every problem whose solution can be quickly verified (technically, verified in polynomial time) can also be solved quickly (again, in polynomial time). The underlying issues were first discussed in the 1950s, in letters from John Forbes Nash Jr. to the National Security Agency, and from Kurt Gödel to John ...

Printer won't print in black. Colour works. I have replaced black cartridge with no results. Have used mostly black before, so it's strange that black won't work while colour does.

SOLVED: Printer won't print in black. What's wrong

A particular symptom could be caused by one of several problems, or even by more than one problem at the same time! All of the gizmos we have fix a specific problem. If a symptom could be caused by two things, Murphy's Law says that if you just pick one without taking measurements, the problem will be caused by the other thing, that a different gizmo fixes.
